The race, which is under the auspices of the American Flying Club is the first handicap event ever undertaken in the air. Its route is from New York to Toronto and return for American entries, and the reverse for Canacian entries. All machines are compelled to make a landing at each of the control stations established at Albany, Syracuse and Buffalo.

Fully two-thirds of the entries will start from the Long Island flying field. They will be started by Major General Charles T. Menoher, director of the United States Army Air Service. The start will be witnessed by a committee of the city's leading citizens. The course from Roosevelt Field will bring the machines directly over this city, at the Fifty-ninth Street bridge. After circling Pershing Square the international New York-Toronto air race, which starts Monday. At

**Brief of City Against** 2-Cent Transfer Filed

Ruling of Nixon Contended To Prince of Wales Ends Be Illegal and Violation of Franchise

1. That Commissioner Nixon is without power under the statute to authorize a 2-cent transfer charge, and that in so doing he violated the provisions contained in the franchise granted by the city to the railway company.

2. That the Public Service Commission's order is illegal in that it fails to specify the transfer points where the Receiver may charge 2 cents, but instead, unlawfully delegates to the receiver the power to decide at what points he may charge for transfers.

Mr. Burr urged that in any event the order be so modified as to provide that each transfer shall be printed so as to include a refund coupon evidencing the right of the holder to the return of 2 cents should the order hereafter be declared unlawful. In support of this request the Corporation Counsel pointed to the 80 cent gas litigation when refund slips were issued pending settlement.
